KEY FEATURES

Bossklein SDactiv Surface Disinfectant is a powerful, alcohol based disinfectant spray. Designed for the disinfection of non-invasive medical device surfaces within medical and dental environments. Ideal to use where time is critical and also in high traffic areas.

- Contact time of only 60 seconds
- Wide effective spectrum
- EN 14467 virus tested
- Kills Coronavirus
- Quick drying
- Leaves no smears or residue
- Dual registration; Medical Device & Biocide
- Fresh lemon aroma

Bossklein SDactiv is ideal to use on alcohol resistant, non-porous surfaces within the dental surgery. The 60 second contact time makes them perfectly suited where short contact times are important, eg in between patients.

The 63% alcohol based formulation has a powerful microbial action, the perfect solution for controlling infections on resistant surfaces in clinical environments.

SDactiv has been rigorously tested and proven to be effective against all Bacteria and Yeast. EN 14476 Virucidal testing proves efficacy against all enveloped viruses including Coronavirus, HIV, Hepatitis and Influenza in just 60 seconds.

The fresh lemon aroma leaves equipment and rooms reassuringly fresh, clean and ready for the next patient.

COMPOSITION

Ethanol (64-17-5) 63% w/w (630g/kg), Aqua, Perfumes.

INSTRUCTIONS FOR USE

Spray clean surfaces and objects to be disinfected from a distance of 30cm so that they are completely moistened and let the disinfectant take action for 60 seconds. Allow surface spray to evaporate. For professional use only.

REGISTRATION

Dual registered as a Class IIa medical device for use on both non invasive medical devices and as a general purpose Biocide registered disinfectant. This ensures suitability for use within all types of clinical and non clinical environments.
