

Soan

With its elegant and ergonomic design, this computerized injection system offers you unbeatable precision for all your local anesthetic needs.

- + **Easy and convenient** handling
- + **Painless for ALL injections** (even palatal) thanks to the precision of a real pen grip associated with adapted flow rates
- + Soan is **compatible with all dental needles**. Its association with Effitec Needles will eliminate the puncture sensation offering the patient an optimal anesthesia experience
- + **Easy and effective intraligamentary injections** resulting in a fast onset of anesthesia without any collateral numbness (bilateral mandibular treatments possible)
- + **A non-threatening design** that reassures all patients
- + Optimal for the performance of **intraosseous anesthesia on children** (efficiency for MIH, pulpitis,...)

Save time in your practice!

Thanks to its high tech functions and ergonomics, optimize time for all your local anesthesia injections.

More comfort for the patient and the dentist!

	Soan	Manual syringe	Ratchet syringe
Painless during the injection	★★★★	★★☆☆	★★☆☆
